Sage Focus Editions; English; This volume provides an update on the young field of environmental criminology -- the study of criminal activity in terms of man's interaction with the environment, and the effort to control and prevent crime through environmental .

Emerging from environmental criminology is the study of geography of crime. Geography of crime addresses the ways spatio-temporal patterns produced through the interactions of people, society, space, time and crime are analyzed.

Criminology, today, remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields.

The criminology of place: street segments and our understanding of the crime problem / David Weisburd, Elizabeth R. Groff, and Sue-Ming Yang. HV W45 The increase of crime and its cause, with a few solid questions / by Anna B. Boone, and a sketch of her antecedents.

New discussions of contemporary criminological theoriesuch as social structure theories, social process theories, social conflict theories, feminist theories, and environmental criminology theoriesprovide students with a concise explanation on why people commit crimes and how to prevent them in the modern world. Criminology: The Essentials, Third Edition, introduces students to major theoretical perspectives and criminology topics in a concise, easy-to-read format. This straightforward overview of the major subject areas in criminology still thoroughly covers the most up .
