Sometimes, women say one thing but mean kendrick1971.com youre having trouble decoding what shes REALLY trying to tell you, heres a nifty gadget to take care of that. The womanese phrasebook is a fine and much-imitated genre of seduction writing, always worthy of further installments. But Ive noticed, at least in myself, that a man can read these translations and understand them logically, but you dont really get them until youve lived through them. When you talk to a woman (or a man or a child) look for the perfect person and talk to him or her. In some people it is easier to see this perfect person than in others, and in some it is so hidden by strange pseudo personalities and other weird baggage that it is almost absent. So key number one is DON'T TALK SO MUCH! Try not to monopolize the conversation and try to LISTEN to what SHE has to say. Remember, everyone is incredibly interested in what they themselves have to say. People will talk to you about themselves for as long as you will listen. So stop worrying about what you're going to say next.
